

GSC was a God sent for me about 10 years ago. I had recently separated from my husband and was in a panic of what to do with the children. Then one of my friends suggested sending them to camp. GSC, they stay for three weeks. She had also sent her kids there when they were young. This was such a blessing, I applied for camp for one of my kids at the time, and the others were too young still. She loved it - she went back every year until she was 16. My other two children followed - my middle child came and went with the camp & my last child loved it so much she went both encampments last year.

We moved at the end of last year and were afraid that she would not be able to go. Through the years the charges went up, but I had always seemed to save up just enough money so they could go. But this year was difficult, but I set my mind to send the child back to the camp she loves so much for her last year.

In short, sending my children to GSC was the best thing I ever did. It gave them time away from a big city, to venture out on their own and have an experience of living with different cultures which is very important to today's world.

Thank you GSC!!!
