

My daughter and I are so excited that she will have an opportunity to attend Golden Slipper Camp this summer. We believe that it is a true blessing from up above. Our main reason for applying this summer is to give Tatyana an outlet outside the city. She needs exposure, to know that there is hope for a better life for her in the event that something happens to me. I am her mother, but currently I am experiencing some great health issues. I want her to meet new people, learn new things, and learn that life is full of awesome possibilities. I think it is important to appreciate and be grateful for the blessings that god allows us to have. From camp she will learn independence, responsibility and love. I have great faith and confidence that your staff will take really good care of her.

Tatyana states that she really wants to experience the beauty of the outdoors, and make new friends. Oh my gosh....I can't begin to tell you how excited we are!! It really brings tears to my eyes. Tatyana's big hopes include learning how to ride a bike, and learning to swim, making new friends, learning about new cultures, and faiths. One day lord willing, when she is older, she will be able to give back...the way that you all have given to her. I commend you on all of your great work, commitment and dedication; and just know, that you have really changed our lives, more than you know.

God Bless
