

I wanted to let you know our family's experience at camp. My son, Bob went for the first time last year with the encouragement of his friend who has been going for several years. When he returned he was a different kid. He became more outgoing and while there tried everything which he never would have done in the past especially being in shows. He had a BLAST! All winter he has been waiting to go back and talked about it so much that his younger brother is now going too! He so wanted to go for both encampments but with 2 kids going...well, you understand. He had such a great experience with everyone from the counselors to meeting all new kids and even winning the sportsmanship award. I really feel it changed him in such a positive way and he never would have had the opportunity to accomplish this home. Since this will be his last year as a camper, he is already talking about how he wants to become a CIT next year. My kids can't wait for June to get here!!!!

Thanks so much for being a great camp.

Barbara & Barry
