Dear Nancy,

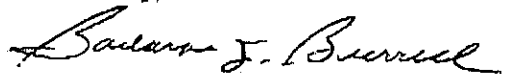

Words cannot express the gratitude to you and the Human Needs Fund for supplying _____ with a mattress and box spring. She was ecstatic when she called to inform me that it had been delivered. I wish I could have recorded the happiness in her voice so you could hear the joy that you bring to others.

You have such a positive impact on the lives of those who are less fortunate by improving their quality of life with items that we sometimes take for granted.

Ms. Marshall is now able to rest and sleep all night in a comfortable, clean, environment which makes it much easier for her to deal with her health challenges that she faces during the day.

Thank you again for your wonderful contributions in making this world a better place by touching one life at a time.

Sincerely,

Barbara J. Burrell, Social Worker
